Subject: Partnership for Clean Indoor Air Bulletin #14 -- Focus on Africa

Dear Colleagues,

We are pleased to share with you the 14th issue of the PCIA Bulletin focused on activities and achievements underway by PCIA Partners in Africa. This issue contains a collection of spotlight and feature articles on: gender-focused Energy Centres being established in Tanzania; new funding awarded for scale-up activities in Africa; Darfur refugees learning to use solar cookers in Chad; ProBEC achievements across the region; PCIA regional capacity-building efforts; the Biogas for a Better Life African Initiative; and the LP Gas for African Development conference. In addition, we highlight recent Partner activities in Senegal and Nigeria.

The PCIA Bulletin is an important source of information and inspiration for PCIA partners and others working to improve the lives of millions of women and children worldwide. Please share it with other institutions and individuals you think would benefit from this information, and encourage them to join the Partnership through the website to receive future Bulletin issues automatically. In addition, we welcome your feedback.
